

CBC DECISION/CLARIFICATION SHEET

Subject: Use of old editions of standards in connection with Type Certification	Standard and clause: IEC 61400-22: 2010 chapter 2	Sheet No. CBC 2B
Status of document: approved	Approval date: 2012-02-22	Originator of proposal: CAC/SC OEM Proposal date: 2011-09-27
Related document: Minutes from CBC meeting in Hamburg		

Question

Does IEC 61400-22 allow use of old revision of standards?

Answer

IEC 61400-22 allows for use of old editions as stated in IEC 61400-22 Chapter 2

“NOTE In the case where an earlier or withdrawn edition of the referenced normative document is used together with this document, these earlier editions must be specified in the Agreement for Certification, see Subclause 6.2, and in conformity statements and certificates.”

Hence, the use of old revisions of standards will require acceptance from the Certification Body in each case.
