**Question**

Does IEC 61400-22 provide for handling of appeals?

**Answer**

Yes.

IEC 61400-22 refers to IEC/ISO Guide 65 for management of the certification system. IEC/ISO Guide 65 is also the basic reference for accreditation.

IEC/ISO Guide 65 covers appeal handling and includes a requirement that the Certification Body shall have procedures for handling of appeals. Information about these procedures shall be made available to the client on request.
